Updated Use Case 4/23/18

Use Case: creating a move request

Primary Actor: vetMove user

Scope: moving services for veterans

Level: User

Brief: User will navigate to vetMove site. User will enter to and from zipcode, select the type of service they need (mover, rental, or both), and then enter details regarding their move. These details include number of people moving, square footage of the home, number of bedrooms of the home and the date you need the services.

Stakeholder:

Preconditions: User knows how to navigate to vetMove, knows moving information (where from and where to, square footage, etc.)

Postconditions: A request is made and stored in the vetMove database.
